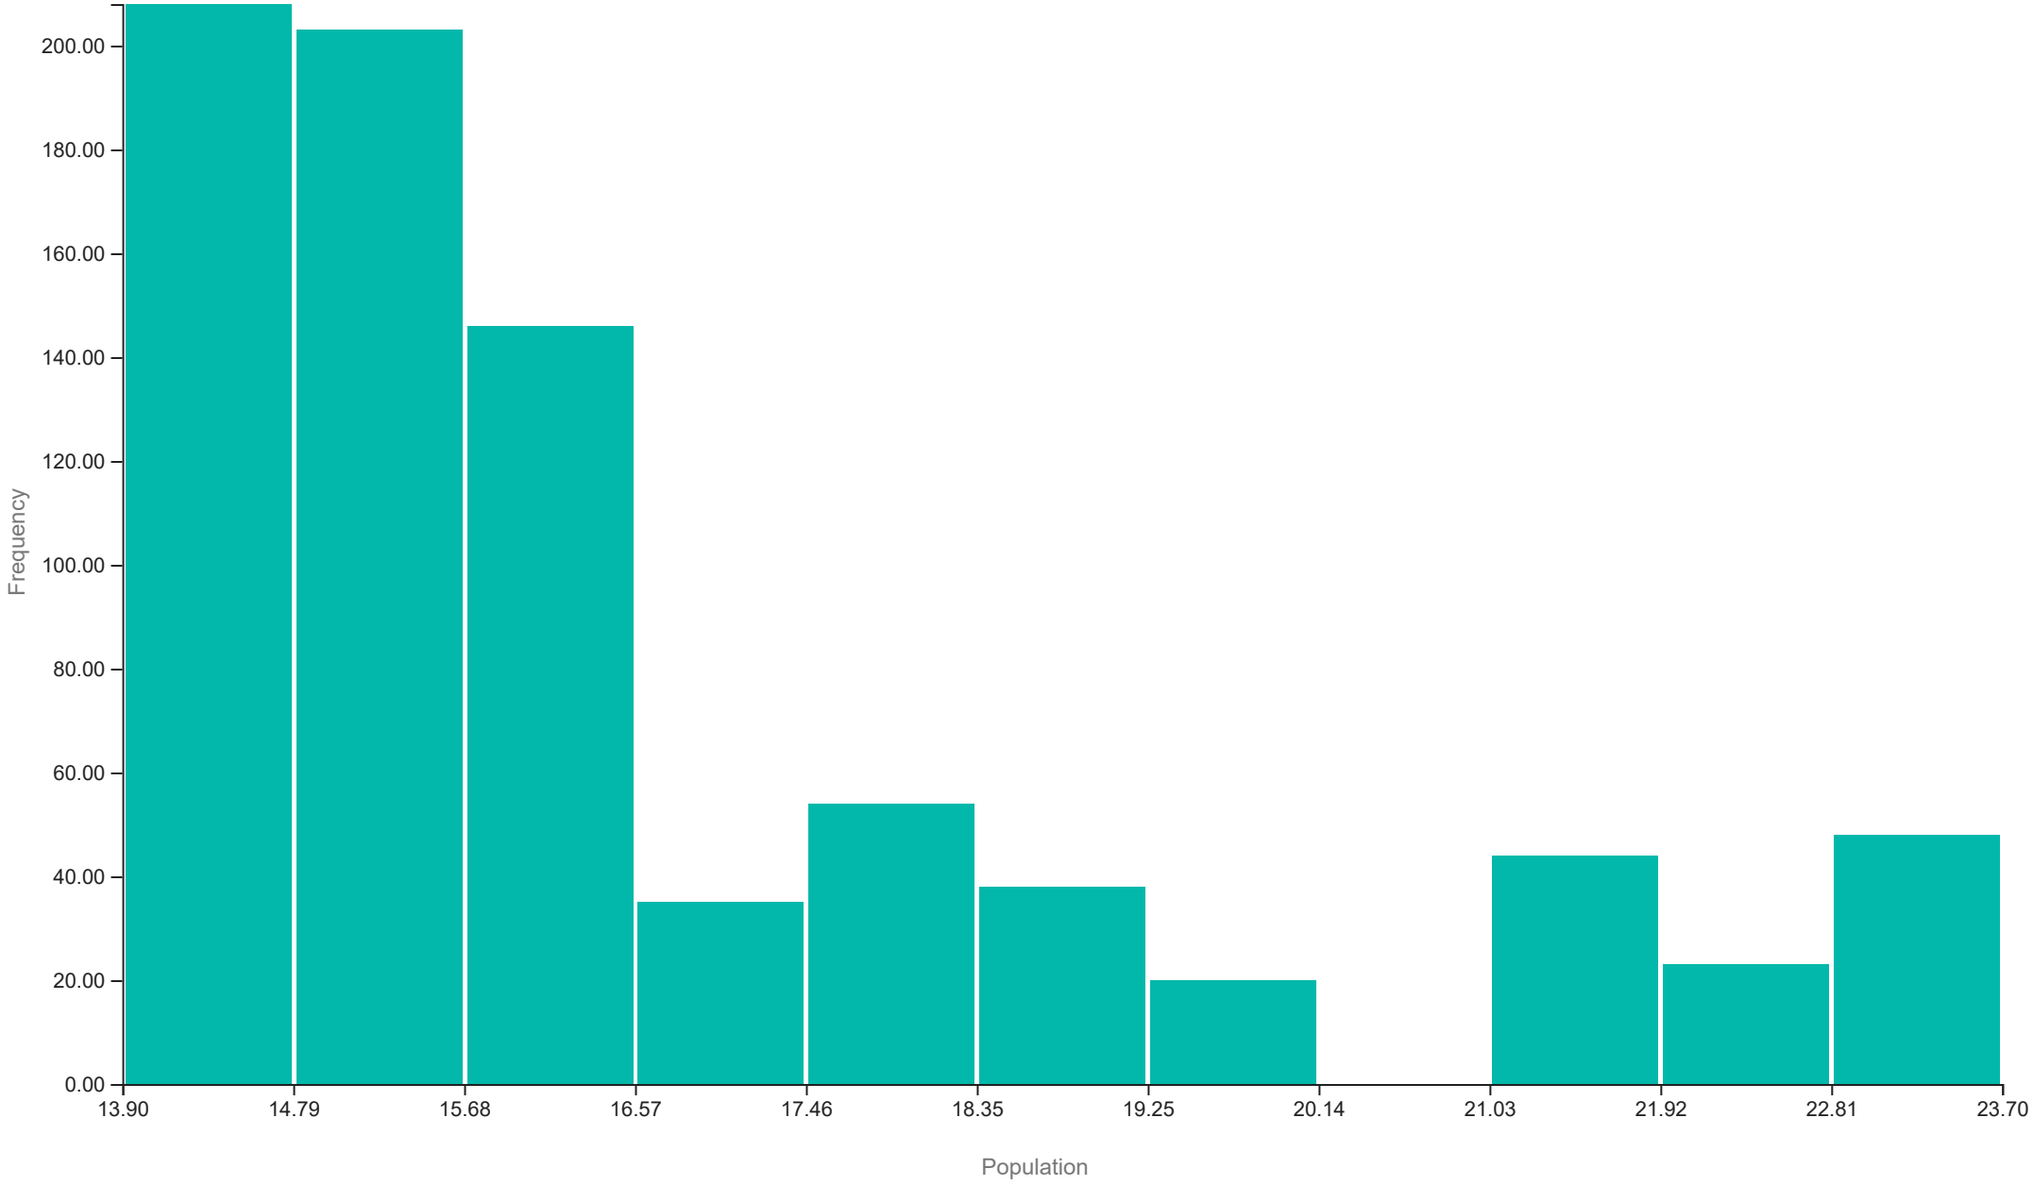
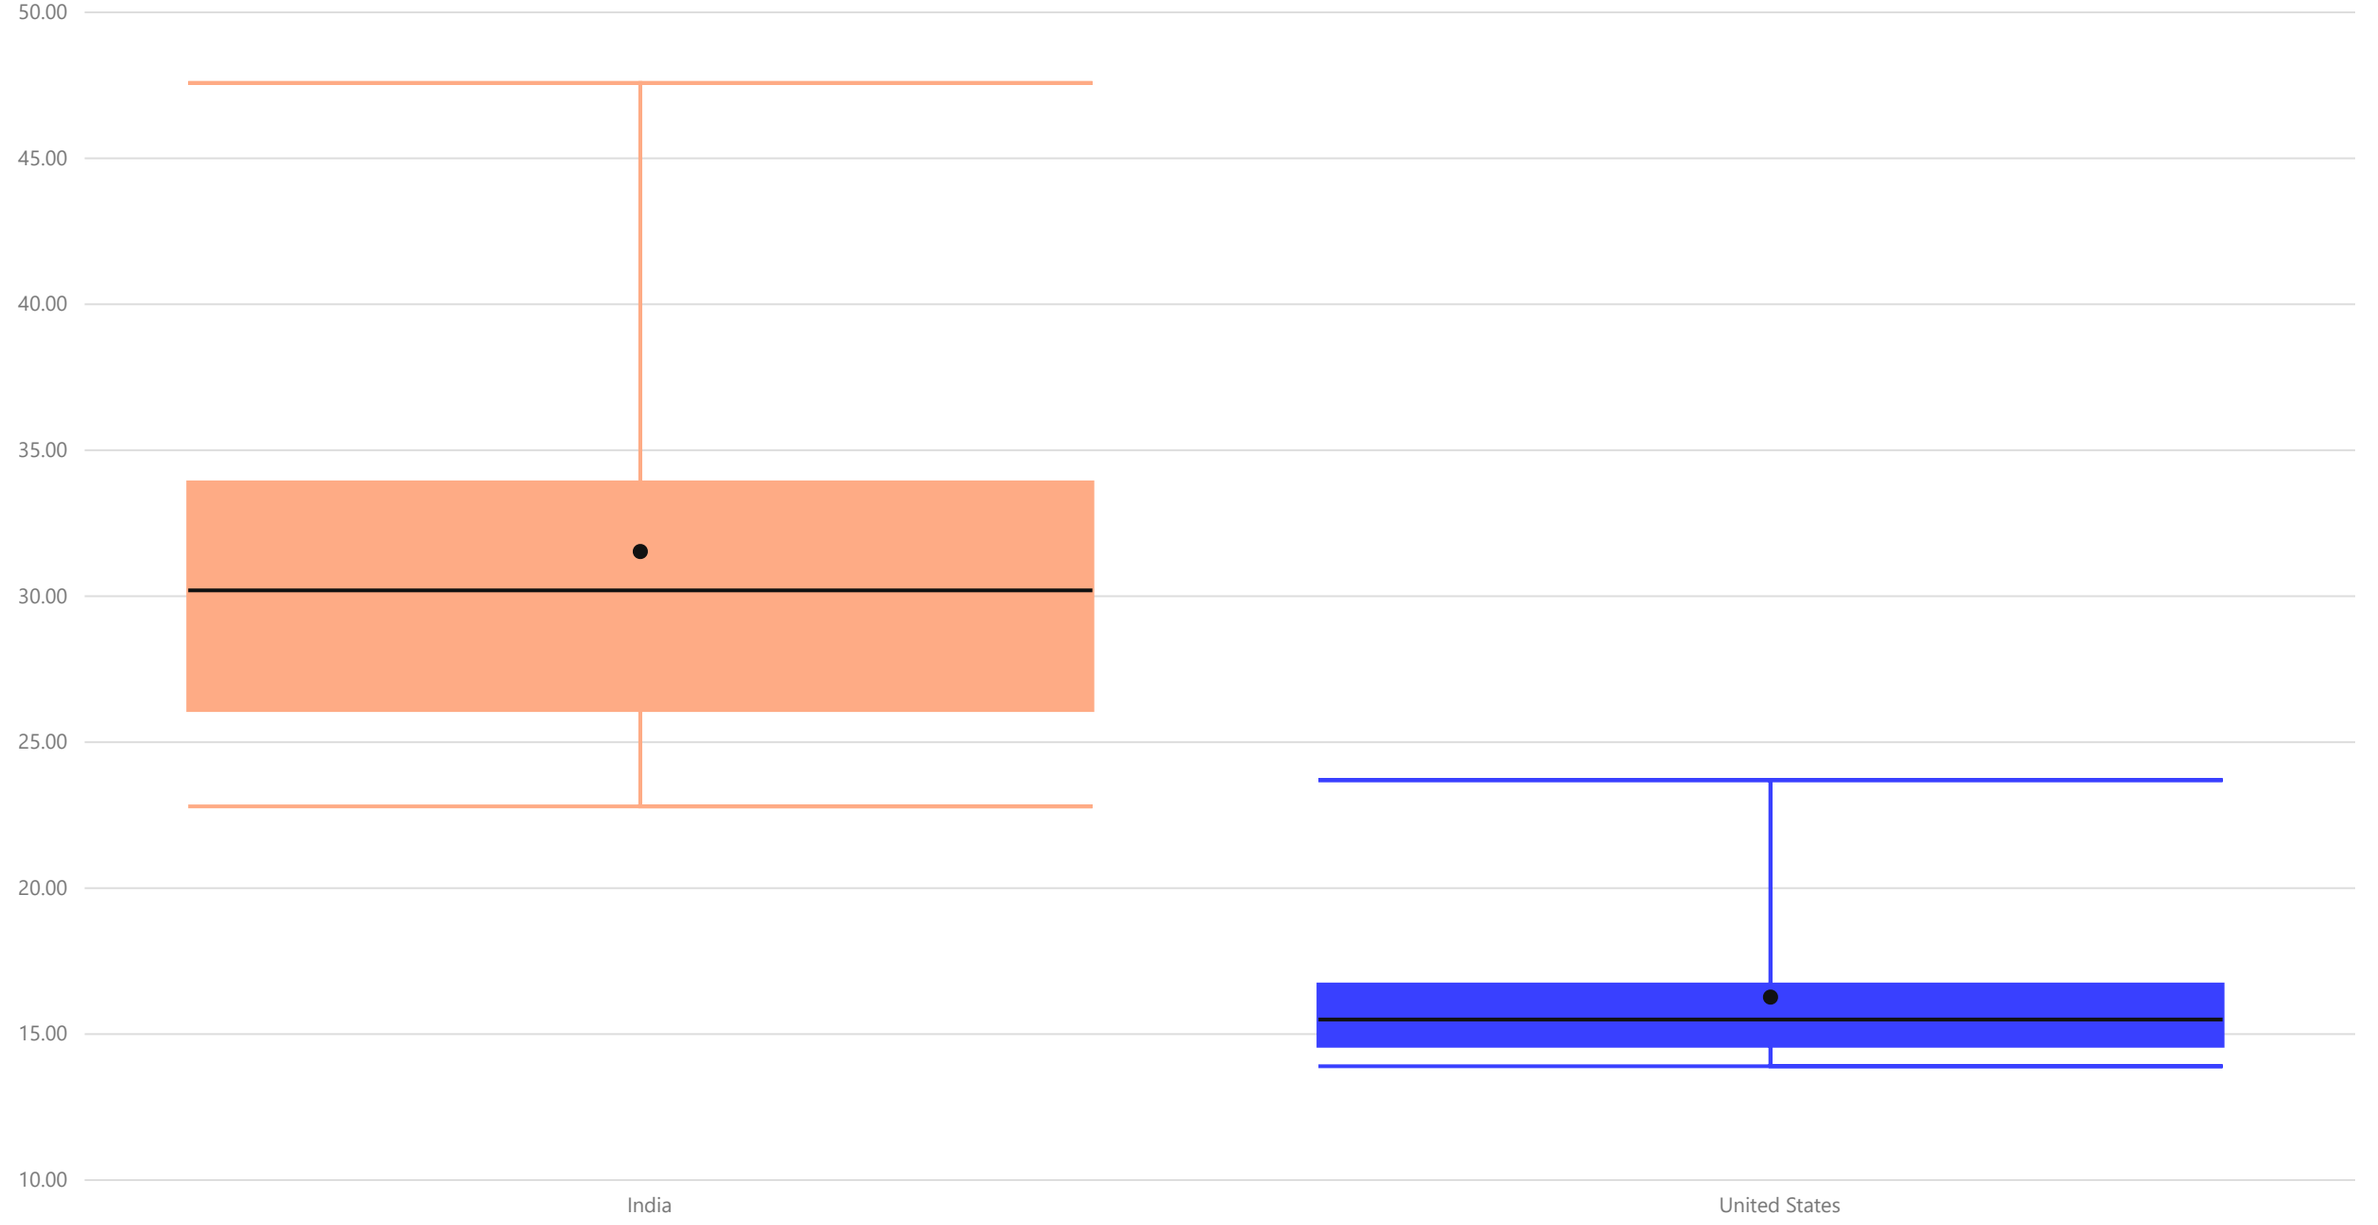
USA Population Rate Changes

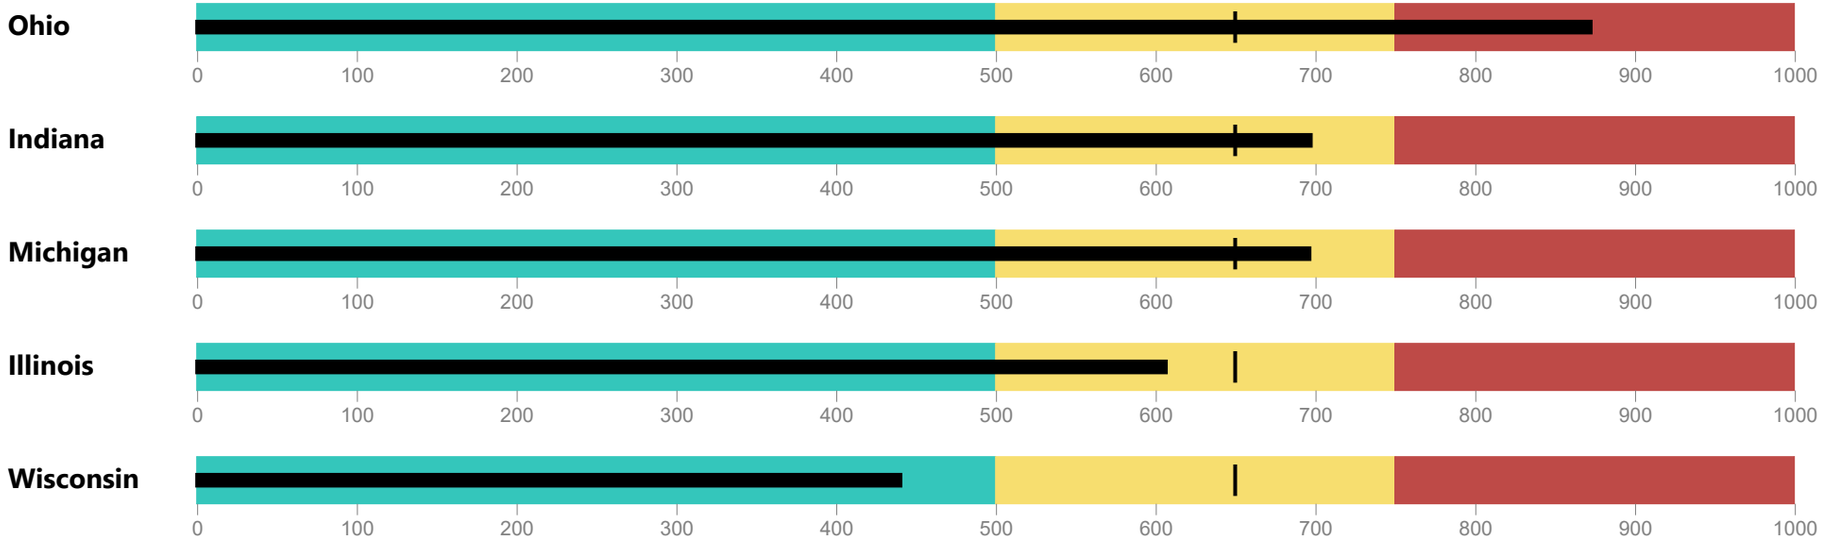


Ceiling value of population has been used to reduce the number of groups

Population sampled over all years for India and USA

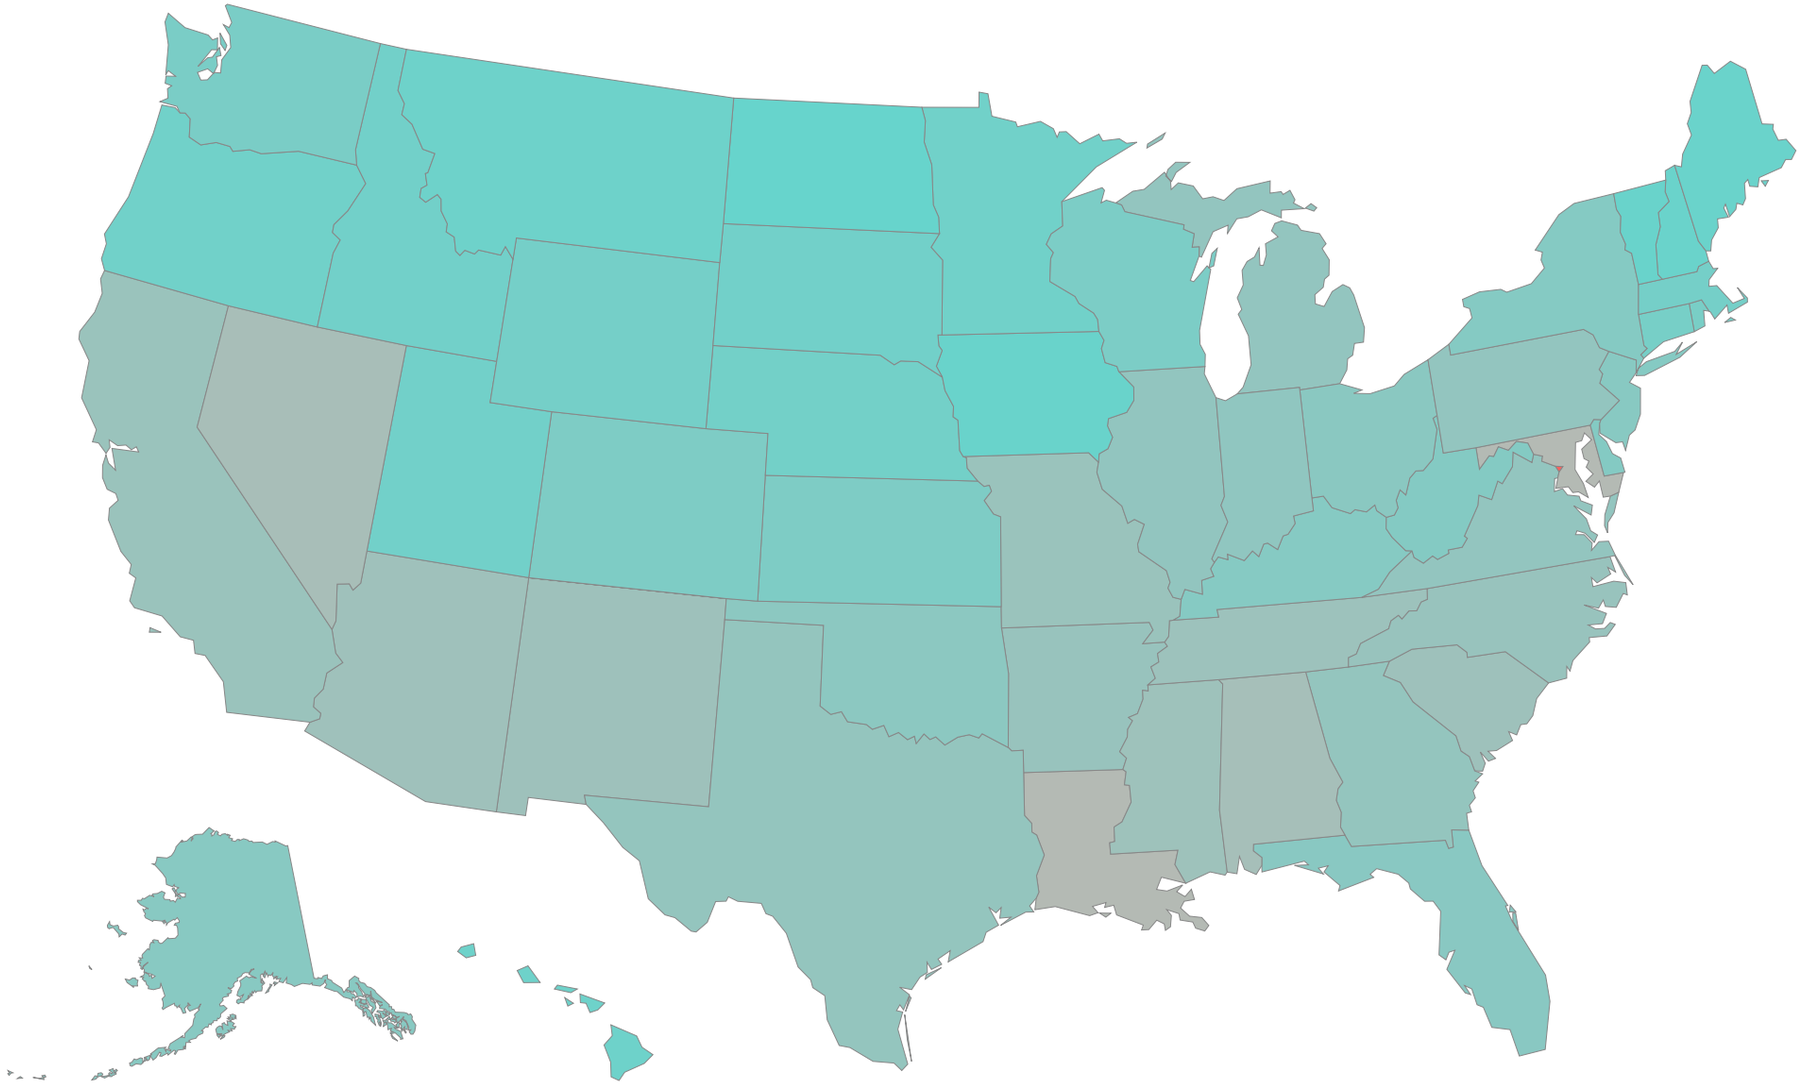


Theft Crime comparison in East North Central States of USA

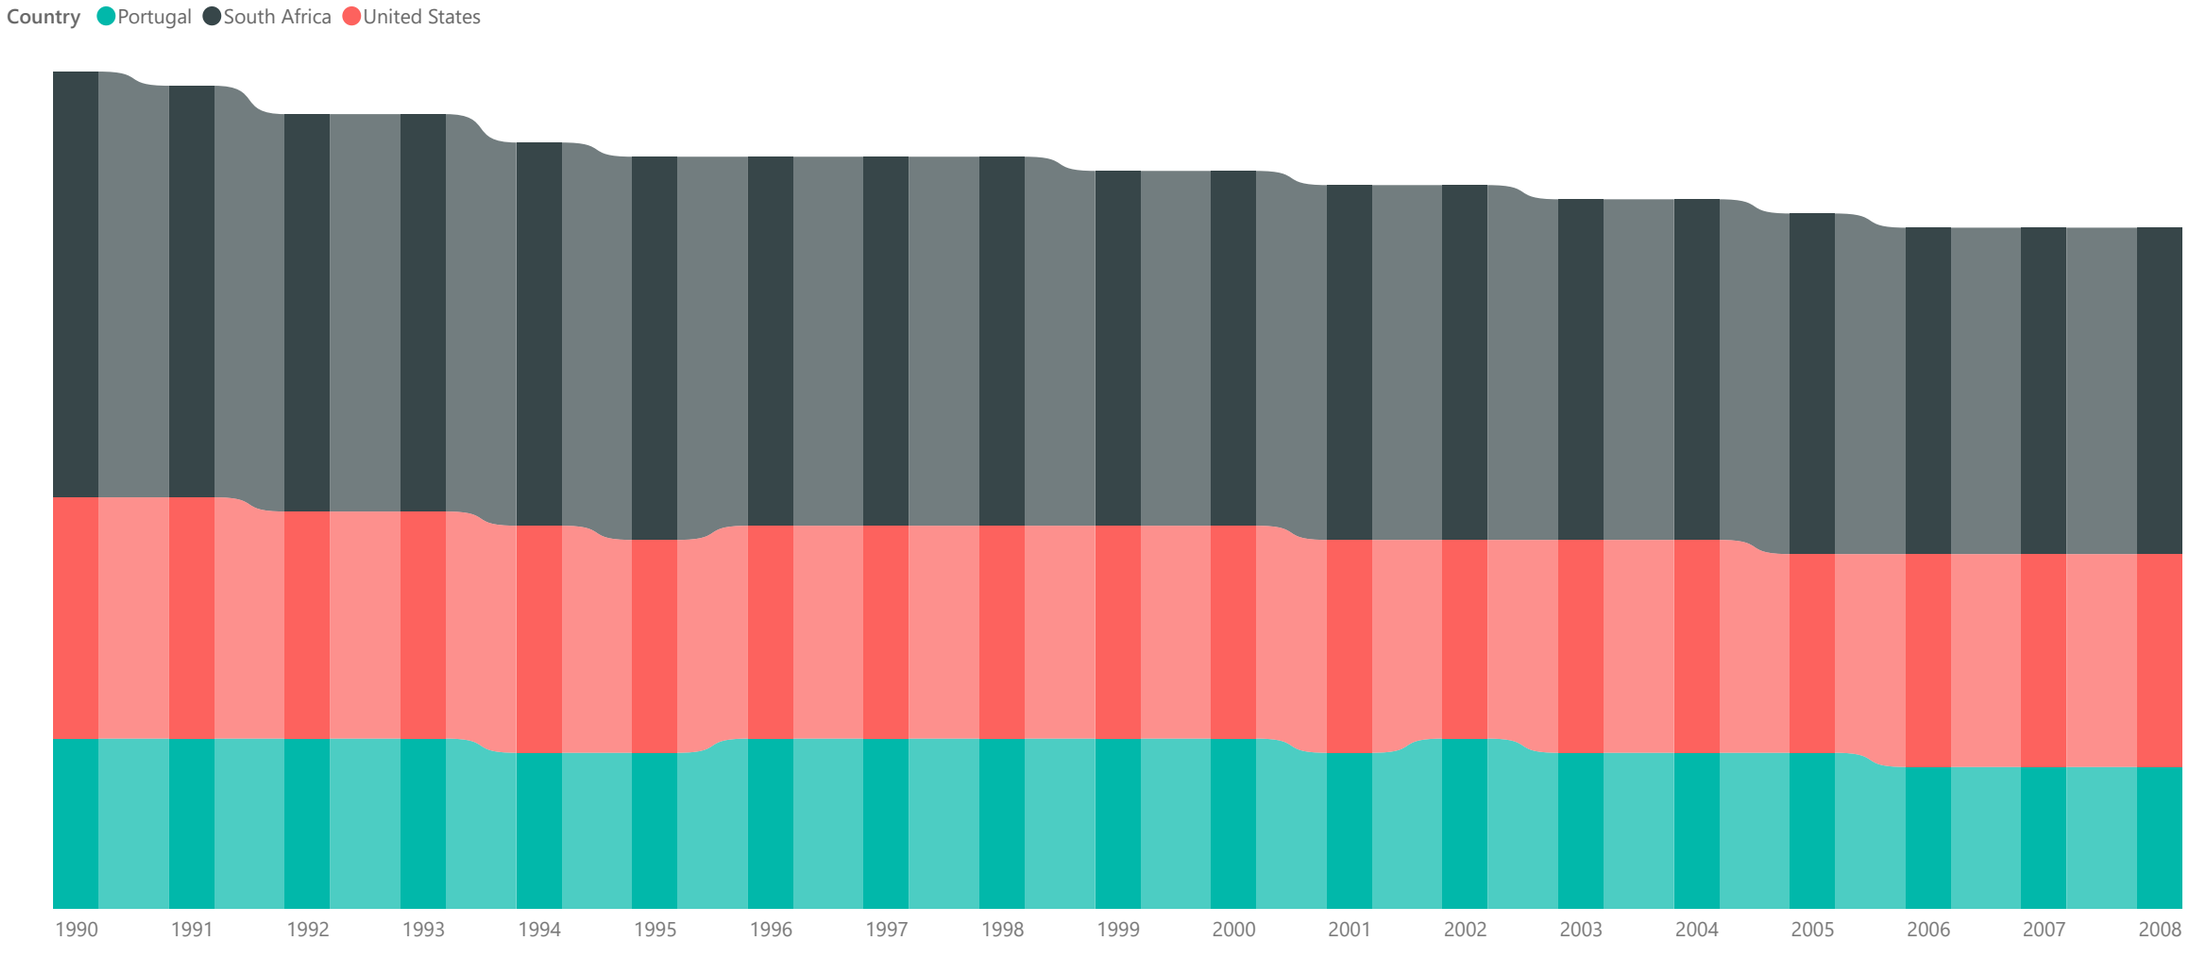


Ohio, Indiana, Michigan and Illinois are the four East North Central states of USA, chosen for the bullet chart, to keep the visualization limited. The green bar shows number of burglary incident marked as 'Safe', yellow represents 'Moderate' and red represents 'Unsafe'. The tick mark is the targeted theft crime index and the black bar is the actual. The further away the bar is from the tick, towards the green part, the safer.

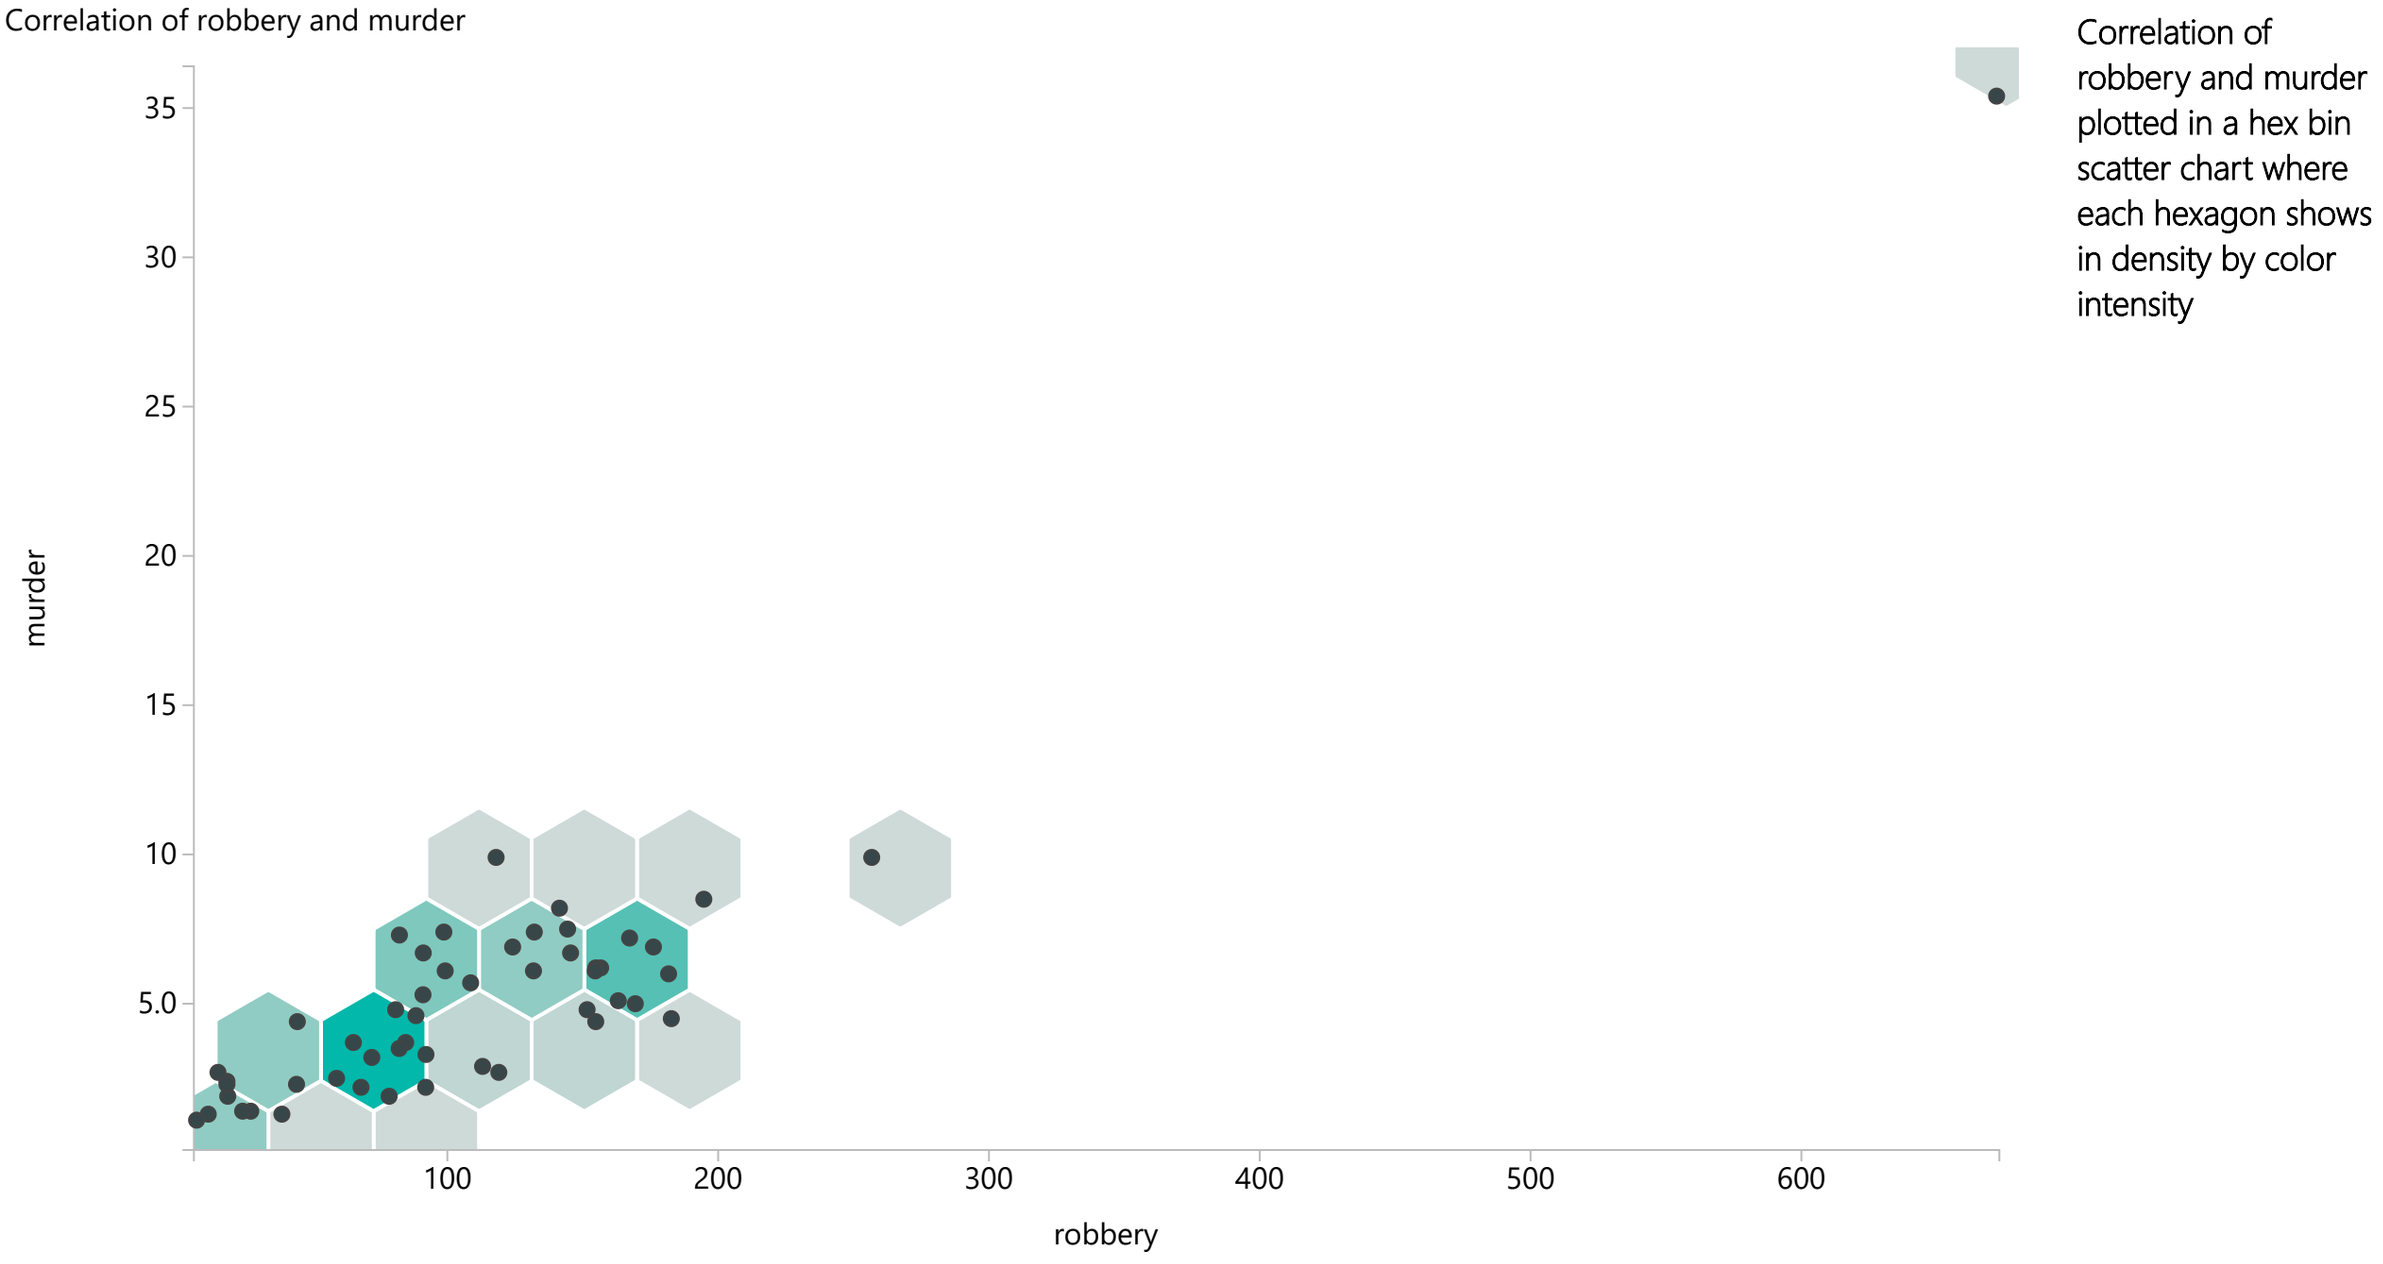
Count of murder crimes by State



Population by Year



Population and population changes over year - Comparison between Portugal, South Africa and USA for the period of 1990 to 2008



Correlation of robbery and murder
Correlation of robbery and murder plotted in a hex bin scatter chart where each hexagon shows in density by color intensity
